SURVEY

We're always happy to come to your site to discuss a project, measure your space or advise on materials.

DESIGN

Send us your design or speak to our team about developing your brand and space.

We have a team of amazing designers ready to help.

PRODUCTION

Let us turn your idea into reality

INSTALLATION

Our friendly and highly trained installers are ready to help get your project over the line.

PARTITION GLASS & WINDOW MANIFESTATION

From privacy frosting or fully bespoke designs, we've got you covered.

Most internal glazing requires safety markings to comply with the 'Disability Discrimination Act' (DDA) building regulation.

Don't limit yourself and step away from those soulless dots.

Whether, we're talking about our *off the shelf* designs or bespoke solutions we've got something for you.

WINDOW TINTS

Blast your space with some colour without restricting light transmission.

Our films offer added security by holding shattered glass in place.

Whilst ensuring 95% absorption of ultraviolet rays, the principal cause of furniture discolouration.

No specialist maintenance required.

SURFACE & FURNITURE WRAPS

Renovate to transform your walls and furniture with our range of textured architectural films.

Perfect for locations like receptions, restaurants, hotel bedrooms, kitchen, lounges, Retail environments.

Our films can be applied in situ, meaning modifications to surface designs in intricate environments can be done with minimal disruption.

With over 650 different adhesive covering references, our solutions come in various styles for interiors that match

- Wood
- Leather
- Marble
- Glitter
- Metallic
- Natural Stone
- Fabric

SAFETY FILMS

Our security films can be applied to any glass surface to provide 24h, maintenance-free protection.

Whether in the home, at work or in public spaces, accidents and acts of vandalism happen.

When glazing is involved it can shatter into smaller and potentially harmful pieces of flying glass.

Our transparent protection films are designed for indoor and outdoor use.

Effectively ensuring that the glass does not shatter, whilst remaining transparent and retaining its overall integrity in the event of an impact, explosion or fire

UV WINDOW FILMS

UV films aren't just for hot countries & sunny days!

A hot office doesn't only increase your potential air conditioning bill; its also a major cause in decreased concentration & productivity.

- Summer Films
- Winter Films
- Anti-Fade UV

INTERACTIVE SURFACES
